Environmental Technician

H2E Incorporated is looking to hire an Environmental Technician in our Westminster, CO office. The primary duties include conducting Storm Water inspections, Spill Prevention Control and Countermeasure (SPCC) inspections, field data collection using GIS/GPS, and record keeping and report preparation. The position will primarily involve field work throughout the Front Range of Colorado with approximately 80% field work and 20% office activities annually (More field work in summer & less in winter). Applicant must be willing to travel out of town/state up to 25% of the time. Applicants need to be self-motivated, able to work independently, have an attention for details, and be committed to contributing to a safe working environment. Applicant must be physically able to walk long distances and be able to lift and carry up to 50 pounds in the course of work activities. Applicant shall have a clean driving record, experience operating four-wheel drive vehicles in all weather conditions, and comfortable conducting field work in all seasons.

Qualifications:

- Associates or Bachelor's degree in a science field (Preferably Environmental Related);
- 0 to 2+ years' experience as an Environmental Technician;
- Pass pre-employment and random drug tests; and
- Proficiency in Microsoft Word & Excel.

H2E Benefits:

- Competitive Wages;
- Paid Holidays/Vacation/Sick Leave; and
- Eligibility to participate in 401K plan after 90 days employment.
